World Bank report showed that Thailand GDP has grown for 3.7% in 2017. The positive trend is happening also on the first quarter this 2018. Capturing this moment, Deliverree is expanding their business to cover a wider logistics transportation to the countrywide area, which marks also their 3rd year business in Thailand.

“We’ve established a strong foothold in Thailand, supporting the growth of small and large businesses through the innovation in logistics.
