Bangkok, 7 May 2018 - Deliverree, cargo logistics delivery provider for businesses, just closed a partnership with Eastern Sea Laem Chabang Terminal Co., Ltd., or better known as ESCO, a full service container handling facility with one of the largest container volume at Laem Chabang Port and Lat Krabang Inland Container Depot (ICD). Through this new cooperation, ESCO expects to facilitate over 20K TEUs of container in 2018 and offer enhanced one-stop service to its customers.

“The collaboration between ESCO Lat Krabang ICD and Deliverree is a strategic alliance with the intent of forging a strong partnership by combining the strengths of both companies to offer greater value to our valued customers. Under a One-Stop Service concept, ESCO Lat Krabang is able to offer a full suite of quality value added services including mid and last mile delivery to meet the increasing demand of our customers.” says Mr. Lee Chun Seng, President of ESCO.

For Deliverree, the cooperation with ESCO aligns with the company’s mission to ease the pain point in logistics transportation for businesses in the country. The delay in cargo delivery due to the unbalance of vehicle supply is one of the major bottlenecks in the market that Deliverree can solve using its advanced technology and

marketplace logistics platform. Following the partnership with ESCO, Deliverree will become a main solution for point-to-point transportation from Lat Krabang ICD to warehouses across Greater Bangkok area for importers and exporters.

“Today’s contract signing ceremony marks an important milestone for Deliverree. We’re honored to develop the long-term partnership with ESCO and be able to bring in our logistics technology competence to support robust cargo movement of ESCO’s customers.”, Chanisa Rueangkiriya, Country Director of Deliverree Thailand adds.

The partnership with ESCO strengthens Deliverree position as the leading logistics provider for businesses in Bangkok area. Presently, Deliverree has 4 vehicle options starting from Economy Car, Pickup, Box Truck, and 6-wheeler truck. It has served businesses in various industry segment including warehouses, logistics companies, manufactures, furnitures stores, and small and medium businesses.

ABOUT ESCO

ESCO is a joint venture between PSA, one of the leading global port groups, Marubeni and Kamigumi from Japan. A pioneering terminal operator from the early days of the port, ESCO's facility is strategically located at the B3 terminal with operations that span 105,000 square meters and 300 meters of berth length. It is readily connected to major highways, and has rail service lines facilities that connect Laem Chabang Port to the Bangkok metropolitan area where Lat Krabang ICD is located.

ABOUT DELIVERREE

Deliverree is a full service logistics marketplace powered by sophisticated mobile and web app technology that allows business to book and manage ground transportation of goods, cargo, merchandise, and almost anything else. Our marketplace connects businesses to drivers with a wide range of vehicles who provide safe, reliable, and affordable transport anywhere in Bangkok metropolitan area and selected areas beyond. Deliverree just raised \$14.5 million series A funding round led by Gobi Ventures last October 2017.
