HOW IT WORKS

1 INSTALL Booking with Deliverree is easy. Download our mobile app from the Google or Apple stores or try our web app.

2 LOCATIONS Enter your pickup and destination locations. Check out the number of available vehicles near your pickup. Add up to 23 destinations per booking!

3 VEHICLE AND SERVICES Select the right vehicle for the items you want moved. Then select your timing preference ranging from "Immediate" to 2 weeks in advance.

4 MATCH Our app matches you with a driver within minutes and provides you with contact details. If your booking is "Immediate", your driver will arrive as quickly as possible. If your booking is scheduled, he'll arrive on time.

5 TRACK Once your items are loaded and your delivery is in progress, you can track your driver's location and ETA in our app. Chat with our CS for assistance anytime.

6 COMPLETION Once your items arrive at their destination, you'll receive a digital signature from your receiver. If there are multiple destinations, you'll receive one for each receiver.
